DATA 602: Principles of Data Science

Online, Fall 2026. Instructor: Dr. Priya Raman (fictional). All times are Eastern.

Assessment

- Python assessment: 5%
- Assignments (3): 30%
- Mini projects (2): 20%
- Take-home midterm: 15%
- Final project: 20%
- Weekly discussion posts: 10% (one post every Sunday)

Key dates

- Python Assessment: Friday, September 4, 2026, 11:59 PM
- Assignment 1 (Data Wrangling): September 18, 2026
- Assignment 2 (Visualization): October 2, 2026
- Mini Project 1: October 16, 2026, 5:00 PM
- Take-home Midterm: opens October 22 at 9:00 AM; submit by October 24, 2026 at 9:00 AM
- Assignment 3 (Machine Learning): November 6, 2026
- Mini Project 2: November 20, 2026
- Final Project: December 11, 2026, 11:59 PM

Suggested reading pace (not graded)

- Python for Data Analysis, chapters 1 to 3, by September 8
- Python for Data Analysis, chapters 4 to 7, by September 29
- Introduction to Statistical Learning, chapters 2 to 4, by October 27
